WHAT IS CLAIMED IS:

- 1. A method for providing an immune response to a non-enteric pathogen antigen (NEPA), in an animal made immunoreceptive to the NEPA, by feeding the immunoreceptive animal with a substance comprising a physiologically acceptable plant material containing the NEPA.
- 2. The method of Claim 1 where the NEPA is hepatitis B surface antigen (HBsAg).
- 3. The method of Claim 1 wherein the animal is made immunoreceptive to the NEPA by feeding the substance to the animal in conjunction with an adjuvant that renders the animal immunoreceptive to the NEPA.
 - 4. The method of Claim by there the NEPA is HBsAg.
- 4 5. The method of Claim 1 wherein the animal is human.
- 5 %. The method of Claim 5 wherein the plant material is from a plant that has been genetically altered to express said antigen.

- The method of Claim 6 wherein the human ingests sufficient plant material to provide from about 10 to about 100 micrograms of NEPA per kilogram of body weight of the human.
- 7 %. The method of Claim 7 wherein the human ingests sufficient plant material to provide from about 2 to about 5 grams of plant material per kilogram of body weight of the human.
- 7. The method of Claim wherein the human ingests said plant material a plurality of different times, said times being separated from each other by at least 5 days.
- 9 10. The method of Claim 9 wherein the plurality of times is three times.
- The method of Claim 19 wherein the plant material is a material from a plant of the family **S**olanaceae.
- 1/2. The method of Claim 1/2 wherein the plant is a potato.
